

CAMPAIGN IN MAUI

Plenty Doing in the Garden Isle.

(Special to the Advertiser.)

MAUI, Oct. 11.—Prince Kuhio will arrive on Maui Tuesday, the 14th. He and his party will leave the steamer at Lahaina and make a complete circuit of Maui.

Delegate R. W. Wilcox and party are expected from Hawaii on Friday night, the 17th, and they will also tour the island. The Home Rulers will land at Makana.

Representative F. W. Beckley left the steamer Claudine at Maalea Bay Tuesday night, the 7th, and registered as a voter at Wailuku on the 8th. The Wilcox party was aboard the Claudine bound for Hawaii.

At Lahaina, fishmarket Saturday night, an audience of about 300 people listened to the Republican speakers—Hon. C. H. Dickey, Messrs. S. E. Kalama, J. Nakalea, W. P. Hale, E. M. Hanana, J. Kalina, Peter Noa and others. Monday evening, the 6th, at Olowalu, the same speakers addressed the residents there.

The evening of the 8th another party of Republicans held a meeting at Kihel. Hon. J. W. Kalua, Messrs. S. Kellinui, D. K. Kahalelo, Philip Pali, J. H. S. Kalo and others made addresses.

Tuesday evening, the 7th, the Republicans held a rally at Waihee church and on Thursday evening, the 9th, in the Wailuku skating rink. The same evening, the 9th, at Waihee there was a Democratic gathering. Messrs. John Richardson, Tom Clark, Pala Naki and others addressing the assembly.

The Maui Board of Registration held its last meeting, the evening of the 9th, at the Maui Hotel. But three citizens registered during the session. The total registration for Maui, Molokai and Lanai was 2127—exceeding that of 1900 by 69.

A VISITING PRINCESS.

Monday, the 6th, Princess Kalamianale, accompanied by Mrs. Cockett and Miss Jones, drove to Wailuku from Lahaina and during the early part of the week were the guests of Judge J. W. Kalua. Wednesday afternoon, the 8th, Hon. and Mrs. A. N. Kepoikai tendered the Princess a luau and reception at "The Fisheries," at Kahului. A large number of well-known people of Central Maui were present.

MISS GREEN'S FUNERAL.

The burial of Miss Mary Green of Honolulu took place at Makawao cemetery Wednesday morning, the 8th, Rev. Dr. E. G. Beckwith of Paia officiating. The grave was profusely adorned with flowers, the gifts of many friends, who attended the final rites. The body of Miss Green, in charge of her nephew, Mr. Henry W. Green, was conveyed to Paia from Honolulu by steamer to Kahului and from Kahului to Paia by train, thence to Makawao cemetery, seven miles distant. It was escorted by a large number of carriages containing the Maui friends of the deceased.

MISCELLANEOUS NOTES.

The afternoon of the 8th at Wells Park, Wailuku, Company 1's baseball team defeated one selected from the Wailuku Athletic Association by the score of 13 to 12.

Attorney Geo. Hons, accompanied by his mother, is expected in Honolulu by the steamer of the 22nd.

Monday evening, the 6th, at a meeting of the Athletic Association in Wailuku court house, the championship cup was formally presented to the "Morning Stars."

Wednesday evening, the 8th, S. Kellinui gave a fine luau to his Republican associates at his Wailuku residence.

C. M. Cooke of Honolulu is the new president of the First National Bank of Wailuku, vice W. J. Lowrie, resigned. Mr. and Mrs. C. C. Perkins are at the Maui Hotel, Wailuku. Mr. Perkins represents the Union Oil Co. of Honolulu.

The Iao Stables of Wailuku are making extensive additions. The building will, when completed, compare favorably with the Bismarck Stables, the best on the island.

Miss Asbury is the new matron at Maunaloa Seminary.

Miss Cameron addressed the missionary society of the Paia Foreign church at Maunaloa Seminary, Tuesday afternoon, the 7th.

Miss Gay of Chicago took charge of the Wailuku kindergarten school this week. She arrived on Maui on Wednesday, the 8th.

Mrs. Weaver has been the guest of her niece, Mrs. J. J. Hair, of Hamakua, during the week.

Friday afternoon, the 10th, a large number of Makawao ladies attended the Reading Club at Mrs. D. C. Lindsay's, Paia.

Weather, quite warm.

St. Louis Boodlers.

ST. LOUIS, October 2.—Today's developments in the trial of Robert M. Snyder on a charge of bribing members of the Council in connection with the passage of the Central Traction bill were of a startling nature. From the testimony of the witnesses, although in some points the evidence is contradictory, it appears that large sums of money were used in securing the passage of this measure. Witnesses stated that all the way from \$10,000 to \$50,000 was paid for a single vote.

ST. LOUIS, October 4.—Patrolman Coulter today arrested John A. alias "Kid" Sheridan, the fugitive member of the House of Delegates, charged with bribery and perjury, in a saloon in the west end. When Sheridan arrived at the Four Courts in charge

of the officer he was placed in the hold-over. In response to a question as to his whereabouts since the indictment Sheridan said he was in a private hospital.

Emil Hartman, the fugitive hoodler who was apprehended at South McAlester, I. T., early in the week, reached St. Louis today and is now an inmate of the city jail. He is held under bonds of \$45,000 on two charges of bribery and one charge of perjury, in connection with the Suburban bribery case.

Hartman is a former member of the House of Delegates, and he is one of the eighteen men indicted as the result of the return of John K. Murrell, from his Mexican hiding place, where he was located by the Post-Dispatch and induced to surrender himself.

Dr. Jordan's Work at Samoa

Dr. David Starr Jordan, of Stanford University, Mrs. Jordan, and Professor V. L. Kellogg returned on the Oceanic steamship Sonoma from the Samoan Islands, where Mr. Jordan has been conducting a thorough exploration of the coral reefs and making a collection of their animal life for the United States Government. The outer coral reef of the American island, Tutuila, which is five miles in length, was thoroughly explored for its marine organisms. Dynamite was used in its larger holes to bring the deep-sea fishes to the surface, and fish poison was used in the smaller cavities of the rock for the same purpose. A large number of natives were also employed in the capture of the surf fish. In all some 10,000 specimens were secured, divided into 617 species. Over 100 of these species were before unknown to science, and some 200 of them were unknown to Dr. Jordan. Five large tanks filled with fish have already arrived at Stanford University, and the whole collection, after it has been more thoroughly classified and arranged, will be divided between the National Museum at Washington and the zoological museum of Stanford University.—Argonaut.

How to Clean a Panama.

I do not know whether a "tip" on the management of Panama hats—real ones—may be of any use to our readers, but as some may very likely ask for guidance, tell what I know. A Panama hat can be cleaned and restored to its "new" appearance by a very simple process. Simply remove the ribband and wash the hat with ordinary toilet soap—not strongly alkaline laundry soap, but the soap you wash your face with. Gink water—not warm—must be used. A soft nail brush is the most eligible medium of application, and when the hat has been washed (it will then present a yellowish appearance) it should be brushed over again with the same brush (from which every vestige of soap has been scrupulously removed in the interval) in several changes of cold water. Finally, the hat should be shaken until it is as dry as that process will make it, wiped with a soft handkerchief and put out to bleach in the sun during all the sunny hours of a summer's day.—London Correspondence of the Haberdasher.

Hawaii's Rippling Language.

The language of the Hawaiian Islands, as every one knows, abounds in vowels, and therefore ripples deliciously in the mouth. It is only necessary to pronounce such names as Honolulu, Oahu, Kilauea, Hilo, Mauna Loa, Kamehameha and Liliuokalani to discover this. A young Presbyterian clergyman of Brooklyn, who visited the islands two or three years ago and prepared a lecture on them on his return, declared that there was only one place on the islands which possessed a name lacking in euphony. That place was Spreckelsville. This euphony of the Hawaiian tongue was productive of one of the jokes of his lecture. The first time he gave it he remarked incidentally that he "took the steamer Wailuku-ally to go to the town of Na-willy-willy." A laugh followed the remark, and thereafter he always included this phrase in his lecture. It invariably produced the same result when used.—N. Y. Tribune.

Entertained by Dowager.

PEKING, October 4.—The Dowager Empress has entertained the ladies of the legations at breakfast in the summer palace. A Chinese guard of honor was stationed two miles along the route to where the ladies embarked on imperial barges, in which they proceeded through the canal to the palace. The procession which presented a gorgeous appearance, consisting of six barges towed by a steamer and five boats manned by oarsmen. The ladies afterward returned to Peking.

Coercion in Ireland.

DUBLIN, October 2.—Ireland is completely in the throes of a coercion campaign. The government's merciless programme for the prosecution of the members of Parliament, editors and tenant leaders is in full swing. Fourteen out of the eighty members of the Irish Parliamentary party are already in jail. All are compelled to wear prison clothes, to spend two hours of the twenty-four exercising along with thieves and wife-beaters, and the rest of the day in cells.

Embassador White.

BERLIN, Oct. 1.—Embassador White has reconsidered his declaration to represent Yale at the 300th anniversary of the Bodleian Library, Oxford, and requested the State Department at Washington today to grant him leave to go to England for three weeks. After visiting Oxford Mr. White will go to St. Andrews, where he will receive the honorary degree of doctor of laws October 23, when Andrew Carnegie is installed Lord Director of that university.

Died in Panama.

PANAMA, October 1.—The funeral services here of J. G. Lewis, who died in New York City, attracted a large attendance. Mr. Lewis was very well known in isthmian affairs and was consulted on all important matters bearing on the isthmian situation. He was a rich banker and a member of the canal commission. He went to Washington last January. His death is deeply deplored in all circles here.

COMMERCIAL NEWS.

Whether or not it was the forecast of Licht or the fact that the bottom had been reached and a recovery must follow, at least stocks have shown during the past week a strength that has been remarkable to the closest observers of the market. Almost all the well-known stocks have either developed advances or strength which leads to hopes for higher prices very soon.

Of the rises in price none has been more remarkable than that of Wailua. This stock sold down to \$36, on the Board, and even lower in the street. During the week the advance has been about 11 points, or even more, for the sales showed a new quotation, \$45 on the Board, but even that figure was passed in the curb market where \$47.50 was realized for small blocks of this stock. There is little of the stock on hand in the brokers' offices, and the rates are such that the holders are showing a tendency to hold for even higher prices, as many believe that the dead point in the shares has gone by and a higher rating may be expected in the future.

Out of sympathy with Wailua, Oahu has developed unexpected strength, and though there have not been sales on which to base the ratings there has been an advance in the stock of ten points. It is now held at \$80, the bid price being \$70, but there seems little inclination on the part of the two ends of the trades to get together. Ewa was strong without trade at \$20.

Another indication of the better feeling is the strength of McBryde. There has been an immediate advance of a half point in the stock, and it is very strong at that, there being none coming out at the higher price. Oahu is wanted at \$4 and \$5, but there is none on the market, and there seems to be little chance that much stock will change hands at that price. Kihel is showing some strength at \$5 and Honolulu has come to \$11 and \$12. Pioneer is strong and altogether there is a feeling in the market that there is a better time coming very soon. Oahu Railway felt this in a \$2.50 rise. During the week there were sales of 10 O. R. & L. Co. at \$57.50 and 15 at \$60; 50 Wailua at \$45; 65 Kihel at \$5; 63 Pioneer at \$60. Of the bond sales, \$3000 Oahu Railway at \$103.50 and \$1000 of Oahu Sugar at \$100.25 constituted the market.

REAL ESTATE MARKET.

Of the little doing in real estate the valleys are holding the principal portion of the public eye. There has been a recent sale of a house site to Maj. Davis in the Nuuanu valley, and as well the artist will erect a residence on Tantalus, the impression made by his residence on the mountain during the summer having been of the best.

Prof. Edgar Wood has bought in College Hills and will soon proceed to erect a residence. His house will be of late design and will be put up as soon as possible.

There have been several other small sales, but the general market is waiting.

SUGAR

F. A. Schaefer & Co. have received the following sugar letter from Williams, Diamond & Co.:

Sugar—No changes have since occurred in the local market or for export. Prices established March 5th still being in force. After the lapse of a considerable time, best granulated is again for sale in this market, in either straight or mixed lots (100 lb. bags only), the Western Sugar Refining Co. under date of Sept. 15th, having issued a list supplementary to their list of March 5th, wherein they quote best granulated at 4.15c for sale in California, Oregon and Washington, and 3.90c for export.

Basis—No sales since last advice; consequently basis for 96 degrees centrifugals in New York established by transaction recorded 3rd ult. remains at 3.4375c. San Francisco 3.0625c.

New York Refined—Quotation 4.50c equivalent to 4.41c net cash established June 19th, continued in force until Sept. 16th, on which day an advance of five points occurred, establishing a price of 4.55c, equivalent to 4.45c net cash. This figure prevailed until today, when a corresponding reduction of five points was concluded, establishing the former figure of 4.50c, equivalent to 4.41c net cash.

London Beets—Sept. 4th, 6s; 5th and 6th, 5s 11½d; 8th, 6s; 9th, 5s 11½d; 10th to 16th, 6s; 17th to 19th, 6s 1½d; 20th, 6s 3d; 21st, 6s 2½d; 22nd and 24th, 6s 3d; 25th, 6s 4½d; 26th and 27th, 6s 3d; 28th to October 2nd, 6s 4½d; 3rd, 7s 2½d.

London Cable—Sept. 27th quotes Java No. 15 D. S. 7s 9d; fair refining 6s 6d; same date last year, 9s 9d and 8s 9d respectively. October beets, 6s 6½d against 7s 7½d corresponding period last year.

Latest Statistical Position—Willett & Gray report Sept. 25th, U. S. four ports in all hands estimated Sept. 24th, 169,681 tons against 172,295 tons same date last year. Six ports Cuba estimated Sept. 23rd, 144,000 tons against 79,970 tons corresponding period last year. The United Kingdom estimated Sept. 20th, 155,000 tons against 113,437 tons same date last year. Total stock in all the principal countries by cable Sept. 25th at latest uneven dates, 1,701,681 tons, against 766,612 tons; increase over last year, \$23,069 tons.

Eastern and Foreign Markets—The demand for the refined product, although less brisk at the close, assumed large proportions throughout the earlier portion of the period under review. Sellers of raws were consequently disposed to hold out firmly for prices beyond the current quotations in the expectation that refiners would in any event be obliged to enter the market freely. Buyers' stocks, on the other hand, were materially replenished by heavy receipts of Javas and Cubas representing past purchases, and no anxiety was apparently displayed to accept prices asked for by holders of spot sugars. The views of buyers and sellers, being apart, a quiet and steady market ruled for a considerable period.

Latterly, however, reports from Europe indicative of unreasonable weather conditions, affecting Germany and France particularly, to which consideration have been apparently given by Mr. Licht in his preliminary estimate recently issued, of 5,400,000 to 5,500,000 tons for the European beet crop about to be harvested, revealing a deficiency between his maximum and last year's crop of 1,000,000 tons, have had an advantageous effect on the markets of the world. A sharp advance in European beets is observable, while latest mail advices from New York under date of 27th ult., indicate a very firm raw market, and intimations that higher prices would be granted for nearby centrifugals. The belief is prevalent that tariff concessions will be granted to Cuba by the next Congress which assemblies in December, the efforts of the Administration having been exerted continuously to bring about the desired result. Meanwhile holders in Cuba seem to have decided to carry the balance of their stocks over until the next campaign.

Charters—Rates have still further declined since our last and with few transactions. Tonnage now asking 2s

3d orders with 18s 9d offered wheat or barley. Last transaction a steel ship 20s Liverpool direct, wheat, flour, merchandise.

Lumber—Freights—Steady. Exchange—London demand, \$1.85½@4.86½; 60 days sight, 4.82½@4.83. New York regular, 2½c; telegraphic, 5c.

Coffee—The market for Hawaiians has remained steady during the past month, and we quote as follows:

Fancy, 14½c to 16c. Prime, 12c to 14c. Good, 11c to 12½c. Fair, 9c to 10½c. Stock of Hawaiians in first hands Oct. 1st, was 2064 bags.

Rice—The market is very firm and our latest advices from the South state that the weather has been bad, which may injure their crops. We quote from Domestic from Japan Seed, 3½ to 4½c; Honduras, 3½ to 6½c. Imported Japan, 5c duty paid.

DR J COLLIS BROWNE'S CHLORODYNE

IS THE ORIGINAL AND ONLY GENUINE.
Coughs, Colds, Asthma and Bronchitis.

DR. J. COLLIS BROWNE'S CHLORODYNE—Vice Chancellor SIR W. PAGE WOOD stated publicly in court that DR. J. COLLIS BROWNE was undoubtedly the INVENTOR OF CHLORODYNE; that the whole story of the defendant, Freeman, was deliberately untrue, and he regretted to say it had been sworn to. See the Times, July 18, 1904.

DR. J. COLLIS BROWNE'S CHLORODYNE is a liquid medicine which manages PAIN OF EVERY KIND, affords a calm, refreshing sleep WITHOUT HEADACHE, and INVIGORATES the nervous system when exhausted. Is the GREAT SPECIFIC FOR CHOLERA, DYSENTERY and DIARRHOEA.

The General Board of Health, London, reports that it ACTS as a CHARM; one dose generally sufficient.

Dr. Gibbon, Army Medical Staff, Calcutta, states: "Two doses completely cured me of diarrhoea."

DR. J. COLLIS BROWNE'S CHLORODYNE is the true palliative in NEURALGIA, GOUT, CANCER, TOOTHACHE, RHEUMATISM.

DR. J. COLLIS BROWNE'S CHLORODYNE rapidly cuts short all attacks of EPILEPSY, SPASMS, COLIC, PALPITATION, HYSTERIA, IMPORTANT CAUTION.—The genuine Sale of this Remedy has given rise to many Unscrupulous Imitations.

N. B.—Every Bottle of Genuine Chlorodyne bears on the Government Stamp the name of the inventor, DR. J. COLLIS BROWNE. Sold in bottles, 1s 1½d, 2s 6d and 4s 6d, by all chemists.

Sole Manufacturer, J. T. Davenport, 33 Great Russell St., London, W. C.
